APPENDIX “A” The Questionnaire	

Highlights

- ★ Saskatchewan's Aboriginal population most often obtains information on government programs and services from the Internet, from television and in-person at government offices (in cities), and at Band Offices (on-reserve).
- ★ Readership and recall for Saskatchewan government information is low. A majority never read this material. The material is generally considered acceptable in terms of utility and the portrayal of Aboriginal people.
- ★ Saskatchewan First Nations and Métis Relations needs to ensure its website is attractive, user-friendly and provides access to information on all programs and areas of interest. The Department should resolve that this will be its primary communication tool.
- ★ While access to the Internet among Aboriginal people is high, the Department should endeavour to combine increased emphasis on the website as the primary information source with promotion of public access points, and in some cases, individual contacts within communities.
- ★ Audiences for both television and radio is spread across so many outlets, times and programming that using these media to communicate would be ineffective. The exceptions to this are the significant audience attracted by MBC and the broad appeal of APTN.
- ★ There is no need to produce written material in any language other than English. Cree and Dené are principally oral languages and having materials translated for broadcast on MBC would be of some benefit. Increasing the number of Department staff who speak Cree or efforts to have existing staff become conversant in Cree would also be of benefit to communications.
- ★ No particular document produced by the Government stood out as being particularly good or particularly bad. Documents appear to be judged on the quality and the clarity of the information provided.
- ★ While significant numbers of Aboriginal people count themselves as at least occasional readers of Aboriginal newspapers, these documents are better used to create awareness for an effective Department website than as means to communicate specific program/service details.
- ★ When significant program or policy initiatives are introduced, public meetings, particularly on reserves, could be incorporated in the communication process.

I. Introduction

Decision Research Inc. was commissioned by Saskatchewan First Nations and Métis Relations to conduct a Communication Assessment for the Department.

Part of the Assessment was a random sample telephone interview survey of the province's Aboriginal population. The questionnaire administered in this survey is attached, Appendix "A". This instrument was developed by Decision Research in conjunction with the Department.

The survey process itself was administered by Pulse Research Limited. Interviewing for the 400 sample survey was conducted during the period of December 15, 2006 to January 15, 2007 from the Pulse phone bank located in Saskatoon..

This report provides the results of this telephone interview survey. The standard frequencies for each of the questions on the survey is provided in the next section of this document. A survey with a sample of this size should have a precision (range of error factor) of ± 3.4 percent at a confidence level of 95% (nineteen out of twenty times).

Interviewing resulted in a sample consisting of 254 First Nations respondents, 146 Métis respondents and one Inuit respondent.

There were 187 males (46.5%) and 215 females (53.5%) completing the interviews.

The First Nations sample was divided equally among on-reserve and off-reserve. Of the 50% residing off-reserve, 45% reside in the province's major urban centres, equal numbers reside in smaller centres and towns and 10% live in rural or unincorporated areas. Over two-thirds of the Métis sample live in one of the province's cities.

First Nations respondents tend to have similar education levels, but lower levels of annual income than did their Métis counterparts in the sample.

Education Levels		
	First Nation	Métis
Grade School	23	14
Some High School	79	30
High School Grad	44	39
Technical/Trades	31	13
Some University	48	32
University Grad	28	15

Annual Household Income		
	First Nation	Métis
< \$25,000	86	34
\$26,000 – \$35,000	63	28
\$36,000 – \$49,000	32	15
\$50,000 – \$74,000	28	29
\$75,000 – \$100,000	16	10
> \$100,000	7	7
Refused	13	17

The median annual household incomes for First Nations respondents was approximately \$29,650 and for Métis respondents approximately \$34,400. In both cases, 42% of their population had some post-secondary education.

The First Nation portion of the sample also tended to be younger than the Métis.

Age					
	Under 25	26 – 39	40 – 55	56 – 65	Over 65
First Nation	41 (16.1%)	81 (31.9%)	82 (32.3%)	31 (12.2%)	13 (51.1%)
Métis	10 (6.8%)	34 (23.3%)	59 (40.4%)	22 (15.1%)	28 (12.3%)
Total	51 (12.7%)	115 (28.7%)	142 (35.4%)	53 (13.2%)	31 (7.7%)

II. Print Media

Respondents were asked if they read daily newspapers, weekly or community newspapers and Aboriginal newspapers, which ones and how often. They were also asked if they read publications and materials that come out from Aboriginal organizations.

Just under one-third of the province's Aboriginal population are regular readers (almost every day) of daily newspapers, and a slightly larger group are "occasional" readers. There was only a slight difference between Métis and First Nations.

Daily Newspaper Readership		
	First Nation	Métis
Almost Every Day	73 (28.7%)	47 (32.2%)
Occasionally	97 (38.2%)	46 (31.5%)
Almost Never	79 (31.1%)	49 (33.6%)
DK/Ref/Don't read	5 (2.0%)	4 (2.7%)

These readers can for the most part be reached through these publications.

Newspapers Read				
	First Nation		Métis	
	Regular	Occasional	Regular	Occasional
Saskatoon <i>Star Phoenix</i>	27	31	24	19
Regina <i>Leader Post</i>	24	25	5	12
Prince Albert <i>Daily Herald</i>	9	16	11	4
Others	12	16	4	5

The "others" includes several out-of-province publications including nine mentions for the *Edmonton Journal*.

Respondents were also asked if they read weekly or community newspapers.

Weekly/Community Newspaper Readership		
	First Nation	Métis
Regularly	59 (23.2%)	51 (34.9%)
Occasionally	78 (3.7%)	37 (25.3%)
Almost Never	99 (39.0%)	53 (36.3%)
DK/Ref/Don't read	18 (7.1%)	5 (3.4%)

Respondents who do read these publications were asked which particular ones they read and several named those which are in fact dailies. Among the many mentions, there were 15 for the La Ronge *Northerner* and another 12 referring to various Shoppers. No other local paper had in excess of five first mentions.

There was a significant difference between Métis and First Nations in terms of readership of Aboriginal newspapers.

Aboriginal Newspaper Readership		
	First Nation	Métis
Regularly	64 (25.2%)	22 (15.1%)
Occasionally	122 (48.0%)	42 (28.8%)
Almost Never	59 (23.2%)	70 (47.9%)
DK/Ref/Don't read	9 (3.2%)	12 (8.2%)

Papers Read				
	First Nation		Métis	
	Regular	Occasional	Regular	Occasional
<i>Eagle Feather</i>	22	27	11	11
<i>SAGE</i>	18	30	4	9
Others	24	65	7	22

The “others” were varied with the largest single publication mentioned being *Windspeaker* at 21 mentions. Respondents were also asked if they read publications or materials that come out from Aboriginal organizations. There was again a significant difference between First Nations and Métis respondents.

Aboriginal Organizations' Material Readership		
	First Nation	Métis
Regularly	59 (23.2%)	20 (13.7%)
Occasionally	73 (28.7%)	56 (37.7%)
Almost Never	106 (41.7%)	63 (43.2%)
DK/Ref/Don't read	16 (6.3%)	8 (5.5%)

The lower response rate among Métis will be contributed to somewhat by the current difficulties of Métis Nation of Saskatchewan but will also reflect lower interest levels.

Females among First Nations respondents tend to be more likely to read than their male counterparts. There was no gender difference among Métis.

There was no significant difference between First Nations residents living on-reserve or off-reserve in terms of readership of Aboriginal newspapers or readership of materials emanating from Aboriginal organizations.

Readership for all print materials: dailies, weeklies, Aboriginal publications and materials from Aboriginal organizations is in all cases much higher among those aged 40 to 55 years and is lowest among both the youngest (under 25 years) and the oldest (over 65 years) respondents.

III. Electronic Media Sources

Respondents were asked about their television viewing and radio listening habits. There were 25 respondents, 16 First Nations and 9 Métis respondents who do not have a television in their household. A majority of both groups regularly watch news broadcasts on television.

Television News Broadcasts Viewership		
	First Nation	Métis
Regularly	139 (58.4%)	79 (57.7%)
Occasionally	57 (23.9%)	37 (27.0%)
Almost Never	39 (16.4%)	21 (15.3%)

The largest audiences are for the “supper” (6:00 p.m.) newscasts and CTV has the highest viewership. Network numbers will be somewhat understated as they exclude several “local channel” responses.

News Broadcasts Viewed				
	First Nation		Métis	
	Regular	Sometimes	Regular	Sometimes
Supper	73	28	45	22
Late	46	21	24	13
Other/Varies	21	8	10	2
CTV	64	18	44	13
CBC	26	15	13	10
Global	11	4	8	5

Among the “other” responses were 8 First Nations and 4 Métis respondents indicating CNN, 3 First Nations naming CBC *NewsWorld* and there were 3 (First Nation) respondents naming APTN.

A large majority of the population spends more than an hour a week listening to radio, more often during morning hours.

Radio Listening per Week		
	First Nation	Métis
Less than an hour	67 (26.4%)	33 (22.6%)
1 – 4 hours	78 (30.7%)	45 (30.8%)
4 – 10 hours	44 (17.3%)	26 (17.8%)
10 or more hours	63 (24.8%)	40 (27.4%)

More than one-in-four spend greater than 10 hours per week listening to radio.

Radio Listening Times		
	First Nation	Métis
Mornings	92 (49.2%)	51 (45.1%)
Afternoon/Early Evening	23 (12.3%)	20 (17.%)
Late Evening/Night	13 (7.0%)	6 (5.3%)
Varies/All	59 (31.6%)	36 (31.9%)

The diverse responses to which channel is listened to most often reflects geography and musical preferences but there were 79 references to MBC, 55 were First Nations and 24 were Métis respondents. This represents 28% of those who listen for significant periods during a week.

Respondents were also asked how many hours they would spend in an average week watching programming on the Aboriginal People's Television Network (APTN).

APTN Viewing		
	First Nation	Métis
Less than 1 hour	86 (36.1%)	53 (38.7%)
1 – 4 hours	96 (40.3%)	54 (39.4%)
4 – 10 hours	35 (14.7%)	17 (12.4%)
10 or more hours	10 (4.2%)	8 (5.8%)
DK / Refused	11 (4.6%)	5 (3.6%)

Those watching APTN for in excess of one hour per week represents 62% of First Nations and 60% of Métis respondents. Viewership is higher among females with 66% watching in excess of one hour compared to only 55% among males.

The tendency to watch television newscasts increases directly with the age of the respondent. “Regular” viewers account for less than one-half of those under 40 years of age, but just over three-quarters (78%) of those over 55 years of age.

The heavy radio listeners, in excess of 10 hours, tend to be both the youngest and the oldest age categories. Middle aged respondents have a greater tendency to spend time watching programming on APTN.

The vast majority of those who indicated they listen primarily to MBC are younger listeners, being named by nearly one-third of those under 40 years of age.

IV. Internet

A majority of Aboriginal people have access to the Internet across the province.

Internet Access		
First Nations	–	138 (54.3%)
Métis	–	93 (63.7%)
City	–	81 (70.4%)
On-Reserve	–	61 (53.0%)
Rural	–	18 (56.3%)

Over 40 percent of those with access spend more than 4 hours a week on the Internet.

Internet Use		
	First Nation	Métis
Less than 1 hour	40 (29.0%)	17 (18.3%)
1 – 4 hours	47 (34.1%)	27 (29.0%)
4 – 10 hours	20 (14.5%)	18 (19.4%)
10 or more hours	30 (21.7%)	28 (30.1%)
Total With Access	138	93

Using the Internet to access information on government services and programs is more common among Métis (58 yes, 18 no) than among First Nations respondents (58 yes, 39 no).

Those with experience were asked how difficult it is, first to find information on government services on the Internet and then how easy they find the information is to use and understand. They generally find the information easier to use than to find.

Government Information on Internet		
	First Nation	Métis
To Find:		
Very Easy	19	16
Somewhat Easy	24	19
Somewhat Difficult	14	23
To Use:		
Very Easy	25	20
Somewhat Easy	26	24
Somewhat Difficult	7	13

Only among the oldest (over 65 years of age) respondents is Internet access low (under 5%).

Younger respondents are less likely to have accessed government information through the Internet and those who have are somewhat more likely to indicate it is hard to find but are also more likely to find it relatively easy to understand and to use.

While a higher percentage of females have access to the Internet than do males, they spend less time on average on the Internet and are less likely to have used the Internet to access information on government programs and services.

V. Habits and Preferences

The sample was asked to indicate what their main source of information on government services and programs is at present. The number indicating each are shown by First Nation/Métis, by gender and for those living on reserves.

Current Information Sources					
	First Nations	Métis	Male	Female	On-Reserve
Internet	48	35	36	47	16
Television	34	27	27	34	23
Dailies	20	13	18	15	6
Band Office	31	2	16	17	27
Word-of-Mouth	15	15	8	22	4
Radio	19	5	15	9	14
Government Office	15	3	10	8	3
Mail	7	8	7	8	4
Weeklies	7	4	5	6	4
Friends/Family	8	2	5	5	–
Radio and TV	6	4	6	4	3
Community Centre	2	1	2	1	–
Community Leaders	3	–	3	–	–
Aboriginal Newspaper	1	2	1	2	–
Métis Local	1	2	1	2	–
FN Organizations	1	1	1	1	1
FSIN	2	–	1	1	2
Tribal Council	1	–	–	1	1
Other Print	1	–	–	1	1

They were then asked to indicate what they feel is the best way or their preferred method of obtaining this information. The same breakdowns are shown for this data.

Best Method of Communication					
	First Nations	Métis	Male	Female	On-Reserve
Mail	74	42	50	66	44
Internet	47	40	46	41	21
Television	22	19	17	24	10
Dailies	14	11	12	13	10
Radio	15	4	10	9	7
Band Office	16	1	8	9	13
Weeklies	10	3	5	8	6
Government Office	10	2	5	7	1
Personally	10	1	7	4	3
Radio and TV	3	1	1	2	1
Community Leaders	3	1	2	2	–
FSIN	3	–	3	–	2
Métis Local	–	3	2	1	–
Aboriginal Newspaper	2	–	1	1	2
Other Print	1	–	–	1	–
FN Organizations	–	–	–	–	–
Community Centre	1	–	–	1	–
Tribal Council	1	–	1	–	1

While few currently rely on the mail as a source of information, it remains the most often cited as the best method.

They were then asked rate the particular methods of distributing information as good or poor for individuals or families such as themselves. The chart shows the “very good” responses for each method.

“Very Good” Ratings for Information Distribution						
	First Nations	Métis	Male	Female	On-Reserve	City
Mail / Brochures	63	42	43	62	34	34
Band Office/Community Centre	72	31	41	62	40	30
Internet	52	37	43	56	22	33
Radio	55	28	39	44	38	16
Community Leaders/Elders	50	22	32	40	27	20
FN/Métis Organizations	42	23	30	35	26	20
Television	36	27	27	36	22	16
Dailies	36	22	37	31	21	20
Weeklies	36	21	25	32	21	15
Meetings	44	14	28	30	22	12
Government Office	31	13	18	26	11	13

The highest “very poor” assessments given in response to these questions were for Internet (50), Public Meetings (40) and through community leaders/Elders (27). Of those indicating a “very poor” assessment for the Internet, 34 of 50 respondents do not have access. Métis respondents and those in urban centres tended to be more negative towards public meetings.

VI. Interests

Respondents were presented with a list of 19 programs or areas and were asked to indicate if they would be very interested, somewhat interested or not really interested in obtaining information on government activities in these areas.

Interest in Information				
	Very Interested	Somewhat Interested	Not Very Interested	Don't Know/ Not Sure
Education	283	81	35	2
Economic Development	209	142	46	4
Self-Governance	117	151	110	–
Treaty Land Entitlements	193	109	87	12
Employment Programs	274	85	38	4
Advanced Education/Employment	299	72	29	1
Programs for Women	274	88	36	3
Youth Programs	297	73	30	1
Seniors Programs	233	108	56	4
Health Care	296	88	16	2
Partnerships Agreements	149	134	82	36
Child Care	258	83	58	2
Environment	250	118	29	4
Agriculture	151	124	116	10
Highways	185	129	80	7
Arts and Culture	211	132	54	4
Social Services	182	126	86	7
Community Resources	222	132	36	11
Funding Sources	268	93	36	4

While there is significant interest in all these areas, those eliciting the most interest were health care, youth programs and advanced education and employment. The areas where there tended to be less interest were self-governance, agriculture, partnership agreements and Treaty Land Entitlements.

They were also asked if there were any other areas or types of information that would be of interest to them or their families. These were generally specific but several have been roughly grouped as follows:

Other Areas or Types of Information of Interest		
Recreation/Sports	–	11
Housing	–	10
Health (specific)	–	10
Education (specific)	–	9
Specific Industries	–	7
Justice / Legal	–	6
Business Assistance	–	6

Respondents were asked in what language they would prefer to have this information available. The answers other than English were:

Language Preference Other than English		
Cree	–	9
Cree and English	–	2
Cree, Dené, English	–	2
Cree, Dené, Métis	–	1
Salteaux	–	2
Nakado, Chipewyan, French, 1 each		

All these respondents did indicate that English was acceptable if it was not possible to have information in this(ese) language(s).

VII. Government Materials

Respondents were asked how often they read publications or materials that come from the Saskatchewan Government.

Readership of Saskatchewan Government Publications		
	First Nation	Métis
Regularly	35 (13.8%)	10 (6.8%)
Occasionally	75 (29.5%)	45 (30.8%)
Almost Never	132 (52.0%)	79 (54.1%)
DK/Ref/Don't read	12 (4.7%)	12 (8.2%)

Overall, only 11.3% read this material regularly. Comparing this to the 30% who read dailies almost every day, 28% regularly reading a weekly/community newspaper or the 20% who regularly read material coming out from Aboriginal organizations, this is a very low level.

Respondent were asked if they recalled particular information that they found either particularly useful or well done and also if they recalled any that they found particularly bad or poorly done. Just slightly more recalled good pieces than recalled bad.

Recall		
	First Nation	Métis
Particularly Good	51 (20.1%)	32 (21.9%)
Particularly Bad	45 (17.7%)	29 (19.9%)

In both cases, they were asked if they recalled what subject the information dealt with and what it was they liked or disliked about the particular piece.

There was no document or program that received more than two mentions among either

First Nations or Métis respondents in terms of a particularly good piece. Regardless of the piece, what was liked in general was that the piece in question was informative or answered specific questions the reader might have.

Similarly, no particular government document was raised by more than one individual as being particularly bad. Many of the comments here indicate there was a general negative response rather than concern over a specific item. Complaints also tend to be general with repeated reference to information being too complicated or confusing or not informative enough.

Despite these comments, for the most part, Aboriginal people find government information easy to understand and make use of.

Perception of Government Information		
	First Nation	Métis
Yes, Easy to Use	185 (72.8%)	91 (62.3%)
No	43 (16.9%)	40 (27.4%)
Not Sure/Don't Know	26 (10.2%)	15 (10.3%)

They also generally find that the information is prepared with someone like them or their family in mind although Métis are less sure on this count.

Government Information Targeted to Respondent		
	First Nation	Métis
Yes	173 (68.1%)	70 (47.9%)
No	50 (19.7%)	52 (35.6%)
Not Sure	31 (12.2%)	24 (16.4%)

Most also find that the information prepared by the Government of Saskatchewan portrays First Nation and Métis people in a positive manner.

Government Information Gives Positive Portrayal		
	First Nation	Métis
Yes	173 (68.1%)	89 (60.1%)
No	39 (15.4%)	28 (19.2%)
Not Sure	42 (16.5%)	29 (19.9%)

Agreement with the statement was 69.5% among males and 62.1% among females.

Younger respondents tend to be more positive towards the targeting of this material and the portrayal of Aboriginals but also tend to have the lowest levels of recall for government materials.

The interviews concluded by asking respondents if there was anything they could suggest which would improve the quality or usefulness of information prepared by the Government that deals with programs and services targeted at First Nations or Métis people. The complete set of responses to this question follow. One repeated comment points to the need to use clear, simple, straight-forward language.

QUESTIONNAIRE

Good afternoon/evening, my name is _____, I am calling from Pulse Research Ltd., a market research firm in Saskatoon. We are calling on behalf of the Government of Saskatchewan Department of First Nations and Métis relations (FNMR). The Department is seeking your cooperation to provide information that will assist them in making decisions on how best to provide information on government programs and policies to First Nations and Métis people and organizations on and off reserve. The goal is to review the overall effectiveness of government communications and develop improvements where required.

We want to find out how most First Nations and Métis people on and off reserve access information on government policies and programs with a view to improving the Provincial Government's communications efforts.

Do you consider yourself to be an Aboriginal person?

NO => thank and terminate
YES => Continue

Are you FIRST NATION or MÉTIS or INUIT ?

Would you have _____ minutes to answer some questions about government information on policies and programs? Your responses will be kept confidential.

NO => offer to call back another time
Call-back time _____
YES => Continue

I want to start by asking a few questions about how you currently obtain information. First;

1.A. How often do you read a daily newspaper? Would it be;

ALMOST EVERY DAY
ONLY OCCASIONALLY or
HARDLY EVER ?= skip to 2.A.

1.B. Which daily newspaper do you read?

Prince Albert DH Saskatoon SP
Regina LP Moose Jaw TH Globe/Post/other

2.A. Do you or your household have a television?

YES = to 2.B. NO = to 4.A.

2.B. And how often would you watch news broadcasts on television. Would you watch these;
REGULARLY [To 2C] SOMETIMES [To 2C] ALMOST NEVER [SKIP to 3]?

2.C. When you watch newscasts on television is it generally the;

SUPPER (6 o'clock) BROADCASTS or
THE LATE EVENING BROADCASTS ?
OTHER

2.D. And which channel's news do you most often watch?

[RECORD Call letters or channel]

3. In an average week, how many hours would you spend watching television programming on APTN
(Aboriginal Peoples Television Network)? Would it be;

LESS THAN AN HOUR / NONE
ONE TO FOUR HOURS
MORE THAN FOUR BUT LESS THAN TEN HOURS or
TEN HOURS OR MORE?

4.A. And in an average week, how many hours would you spend listening to radio. Would it be;

LESS THAN AN HOUR / NONE [SKIP to 5]
ONE TO FOUR HOURS = 4B
MORE THAN FOUR BUT LESS THAN TEN HOURS or =4B
TEN HOURS OR MORE? = 4B

4.B. What time of day do you generally listen to the radio. Is it most often;

MORNINGS

LATE AFTERNOON AND EARLY EVENING or

LATER EVENING AND NIGHT?

[VARIES / ALL TIMES]

4.C. And which radio station do you most often listen to?

[RECORD Call letters or channel]

5.A. Do you read a weekly or community newspaper;

REGULARLY = 5B OCCASIONALLY = 5B or ALMOST NEVER? = to
5C

5.B. Which weekly or community newspapers do you read?

[RECORD first mention]

[RECORD second mention]

5.C. Do you read aboriginal newspapers;

REGULARLY = 5D OCCASIONALLY = 5D or ALMOST NEVER? = to
6

5.D. Which aboriginal newspaper(s) do you read?

SAGE

EAGLEFEATHER

OTHER = RECORD

6. Do you read publications or materials that come out from Aboriginal organizations
regularly, sometimes or almost never?

REGULARLY

OCCASIONALLY

ALMOST NEVER

7. And do you read publications or materials that come out from the Saskatchewan
Government including First Nations and Métis Relations regularly, sometimes or
almost never?

REGULARLY

= 5B

OCCASIONALLY = 5B

or ALMOST NEVER? = to

6

8.A. Do you have access to the Internet?

YES = to 8.B NO = skip to 9

8.B How many hours in an average week would you spend on the internet? Would it be;

LESS THAN AN HOUR / NONE

ONE TO FOUR HOURS

MORE THAN FOUR BUT LESS THAN TEN HOURS or
TEN HOURS OR MORE?

8.C. Do you ever use the Internet to access information on government services and programs?

YES = to 8D NO = skip to 9

8.D. When you are looking for information on government services or programs using the internet do you generally find that the information is;

VERY EASY TO FIND

SOMEWHAT EASY TO FIND or

SOMEWHAT DIFFICULT TO FIND?

8.E And when you do find information on the internet on government services and programs, is that information generally presented in a way that makes it;

VERY EASY TO UNDERSTAND AND USE

SOMEWHAT EASY TO UNDERSTAND or

SOMEWHAT DIFFICULT TO UNDERSTAND AND USE?

[don't know / not sure]

9. Still thinking about information on government programs and services or policies, what is your main source of information on these. From what source do you most often obtain this information?

[No prompt]

Television / Daily newspaper / Radio / Weekly/community newspaper

Radio and TV / Mail / brochure/leaflet/pamphlet / Internet
Aboriginal newspaper / Magazines/other print / Community leaders/elders
Métis locals / First nations organization / Community Centre /
Government Office / Band Office / Friendship Centres / FSIN
Tribal Councils / Other [Record]

10. And what would be the best way to get information on government services and programs to you or by what method would you prefer to get this information?

[No prompt]

Television / Daily newspaper / Radio / Weekly/community newspaper
Radio and TV / Mail / brochure/leaflet/pamphlet / Internet
Aboriginal newspaper / Magazines/other print / Community leaders/elders
Métis locals / First nations organization / Community Centre /
Government Office / Band Office / Friendship Centres / FSIN
Tribal Councils / Other [Record]

11. I'm going to list off a number of methods that might be used to get information on government programs and services out to people like you or families like yours. For each of these methods, I'd just like to know if you think it is a very poor way to get out information, poor, good or a very good method to distribute information. The first of these is; [Repeat response items as necessary]

- 11.A. Television VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK
11.B. Radio VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK
11.C. Daily Newspaper VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK
11.D. Weekly/Comm.newsp. VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK
11.E. Internet /websites VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK
11.F. Mailed brochures VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK
11.G. Public Meetings VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK
11.H. Information available at government offices
 VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK
11.I. Information available at community centers or Band Offices

VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK

11.J. With information from Saskatchewan First Nations or Métis organizations

VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK

11.K. Using community leaders and elders to distribute information

VERY POOR / POOR / GOOD / VERY GOOD / NOT SURE/DK

I'd also like to know the types of programs or areas that would be of interest to you or your family. For each area I'd like you to tell me if you would be very interested, somewhat interested or not really interested in obtaining information on government activities in that area. First would be;

I N T E R E S T

12.A. Education	VERY	SOMEWHAT	NOT REALLY	DK/NS
12.B. Economic Development	VERY	SOMEWHAT	NOT REALLY	DK/NS
12.C. Self Governance	VERY	SOMEWHAT	NOT REALLY	DK/NS

12.T. Are there any other areas or types of information that would be of particular interest to you and your family, Government programs or services that you would be very interested in getting information on?

NO YES = [Record]

13.A. In what language would you prefer to have this information presented or available?

ENGLISH = to 14.A.

OTHER = [RECORD] = to 13.B.

13.B. If it was not possible to have this information readily available in [response to 13.A.

previous]_____ is English an acceptable alternative for you and your household?

YES NO

14.A. Do you recall any information that you noticed for a government program or service that you found particularly useful or particularly well done?

NO/NOT REALLY/NOT SURE= to 14.D. YES = to 14.B.

14.B. Do you recall what subject that information piece dealt with?

NO = to 14.D. YES = [Record] =to 14.C.

14.C. And do you recall what it was about this piece that you found particularly useful or appealing?

NO YES = [Record]

14.D. And do you recall any information that you noticed for a government program or service that you found was particularly bad or poorly done?

NO/NOT REALLY/NOT SURE = to 15.A YES = to 14.E.

14.E. Do you recall what subject that information piece dealt with?

NO = to 15.A. YES = [Record] = to 14.F.

14.F. And do you recall what it was about this piece that made it particularly bad?

NO YES = [Record]

15.A Do you find the information you do receive on Government programs and services is easy to understand and make use of?

YES NO NOT SURE / D K

15.B. Do you feel like this information is prepared with someone like you or your family in mind?

YES NO NOT SURE / D K

16. Do you find that the information prepared by the Government on its programs and

services that you recall portrays First Nation and Métis people in a positive manner?

YES NO NOT SURE / D.K.

17. And is there anything that you can suggest which would improve the quality or the usefulness of information prepared by the Government that deals with programs and services targeted at First Nation or Métis people?

NO/NOT REALLY YES = [RECORD]

I just need to finish off by asking a few questions to make sure we are getting a representative sample of your community.

[18. By observation: Gender : MALE /FEMALE]

19. First of all, can you tell me in what year you were born? [RECORD]

20.A. Including yourself, how many persons live in your household?

ONE = to 21. TWO THREE FOUR FIVE SIX OR MORE

20.B. How many of these would be 18 years of age or under?

NONE =to 21 ONE TWO THREE FOUR OR MORE

20.C. And how many of these would be under the age of 12 years?

ONE . TWO THREE FOUR OR MORE

21. Stop me when I come to the category that best describes your highest level of education.

GRADE SCHOOL

SOME HIGH SCHOOL

HIGH SCHOOL GRADUATE

TECHNICAL / TRADES SCHOOL

SOME UNIVERSITY

UNIVERSITY GRADUATE / POST-GRADUATE

22. Do you live in a; CITY / TOWN OR VILLAGE / ON A RESERVE
or in a RURAL OR UNINCORPORATED AREA?

23. What are the first three digits of your Postal Code? S ____ _

24. And again, stop me when I get to the category that best describes the total annual household income for your household for this year. Would it be:

LESS THAN \$25,000 PER YEAR

\$25,000 TO \$35,000

\$36,000 TO \$49,000

\$50,000 TO \$74,000

\$75,000 TO \$100,000 or

MORE THAN \$100,000?

[REFUSED]

[Not Sure /don't know]

Thank you very much for your time.
