## **Overview of Travel and Objectives**

---

This CCME meeting was an opportunity for Ministers to discuss work done to date on a Pan-Canadian climate change framework over the past several months. Ministers were supposed to review the work done to date and put together options for First Ministers to discuss later this year.

While this work was being discussed at the CCME table, the Prime Minister and Federal Government unilaterally announced a Federal carbon tax without any consultation with Provincial Ministers. This announcement undermined the intention of the CCME meeting and resulted in several Ministers, including Saskatchewan, to raise significant concerns and ultimately leave the meeting prior to its conclusion.
