

Saskatchewan Consumer Price Index

November 2015

According to Statistics Canada, the Saskatchewan All-items Consumer Price Index was unchanged between October 2015 and November 2015 while the Canada All-items Index declined 0.1 percent. The Regina and Saskatoon All-items Consumer Price Index both remained unchanged during the same period.

In Saskatchewan, the November All-items Index was unchanged from October 2015 because higher prices for purchase and leasing of passenger vehicles, women's clothing, fresh vegetables, inter-city transportation and footwear.

Those price increases were equalled by lower prices for gasoline, traveller accommodation, travel tours, children's clothing and clothing accessories, watches and jewellery.

The Saskatchewan All-items Consumer Price Index advanced 2.1 percent between November 2014 and November 2015 while the Canada All-items Index increased 1.4 percent. The Regina and Saskatoon All-items Consumer Price Index climbed 1.9 percent and 2.2 percent, respectively, during the same period.

The November All-items Index increased from November 2014 primarily due to higher prices for purchase and leasing of passenger vehicles, homeowners' home and mortgage insurance, electricity, fresh fruit and fresh vegetables.

These increases were partially offset by lower prices for gasoline, furniture, homeowners' replacement cost, telephone services and fuel oil and other fuels.
