

# Saskatchewan Consumer Price Index

February 2010

---

According to Statistics Canada, the Saskatchewan All-items Consumer Price Index increased 0.2 percent between January 2010 and February 2010 while the Canada All-items Index advanced 0.4 percent. The Regina and Saskatoon All-items Consumer Price Index rose 0.1 percent and 0.2 percent, respectively, during the same period.

In Saskatchewan, the February All-items Index increased from January 2010 primarily due to higher prices for traveller accommodations, travel tours, rent and natural gas. Prices also rose for men's clothing, women's clothing and footwear.

Moderating these increases were lower prices for gasoline, furniture, prescribed medicines and personal care supplies and equipment. Prices also fell for inter-city transportation, sugar and confectionery and fresh fruit.

The Saskatchewan All-items Consumer Price Index advanced 1.0 percent between February 2009 and February 2010 while the Canada All-items Index increased 1.6 percent. The Regina and Saskatoon All-items Consumer Price Index climbed 1.3 percent and 0.8 percent, respectively, during the same period.

The February All-items Index increased from February 2009 primarily due to price increases for gasoline, electricity, the purchase and leasing of passenger vehicles and passenger vehicle insurance premiums. Prices also rose for rent, food purchased from restaurants and traveller accommodations.

These increases were partially offset by price decreases for natural gas, homeowners' home and mortgage insurance and property taxes (including special charges). Prices also fell for furniture, fresh vegetables, women's clothing and home entertainment equipment – parts and services.
