

## Industry Tip

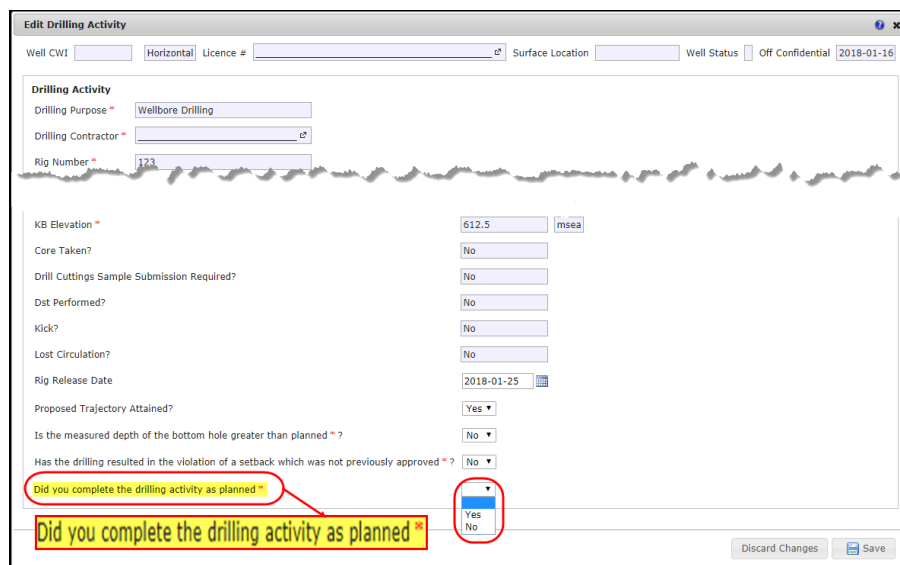

### New Declaration Question for Additional Wellbore Drilling Reporting

Date	Module/Application/Functionality	Notes
February 07, 2018	Immediate Reporting/Drilling and Completion/Additional Wellbore	Initial Release

The IRIS 5.12 release will allow the Ministry to create an Additional Wellbore Drainage Area Change as part of an Additional Wellbore authorization. The Additional Wellbore Drainage Area Change will be created when an application for Additional Wellbore indicates that the wellbore will change the well completion drainage area.

A new mandatory declaration question, “*Did you complete the drilling activity as planned?*” with “Yes” or “No” selectable response, has been added to the Edit Drilling Activity screen. The new question will only be applied to Additional Wellbore reporting when Industry is reporting Rig Release of an additional wellbore with an approved Additional Wellbore Drainage Area Change. The Industry response to this question will assist the Ministry in final review of the approved drainage area and in maintaining the well completion drainage area information.

For reference, a screen shot of where the new declaration question appears is included below.

The screenshot shows the 'Edit Drilling Activity' form. The form includes fields for Well CWI, Horizontal, Licence #, Surface Location, Well Status, and Confidentiality. The Drilling Activity section contains fields for Drilling Purpose (Wellbore Drilling), Drilling Contractor, and Rig Number (123). Below these are several yes/no questions: KB Elevation (612.5 msea), Core Taken?, Drill Cuttings Sample Submission Required?, Dst Performed?, Kick?, Lost Circulation?, Rig Release Date (2018-01-25), Proposed Trajectory Attained?, Is the measured depth of the bottom hole greater than planned?, and Has the drilling resulted in the violation of a setback which was not previously approved?. The new question, 'Did you complete the drilling activity as planned?', is highlighted with a red circle and a yellow callout box. The question has a dropdown menu with 'Yes' and 'No' options.

## Questions?
