

## Industry Tip

---

### Completion Abandonment for Abandoned Re-entry Wells

Date	Module/Application/Functionality	Notes
September 24, 2018	Well and Facility Infrastructure, Well Licence Obligations	5.16 Release

The Government of Saskatchewan is implementing a change to avoid a re-entry Well Licence being issued when the original abandoned well has active or suspended completions in IRIS.

IRIS will allow user to complete the application for the licence but user will receive a hard stop message to abandon the previous completions. User will have the option to save the Well Licence application as draft until the completions on the original well are abandoned.
