

Shadow Billing Ends October 31 for IRIS Non-Compliance Penalty Assessment Program

Date	Module/Application/Functionality	Notes
September 26, 2018	Well and Facility Infrastructure: Obligations and Reporting of Well, Wellbore and Well Completion Data	Initial Release

The **shadow billing period** for the Ministry of Energy and Resources' non-compliance penalty assessment program for unfulfilled well data submissions in IRIS **ends on October 31, 2018**.

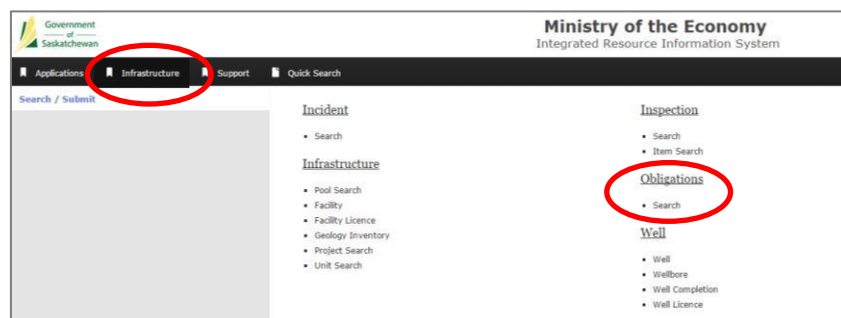

The non-compliance invoice issued the first week of November 2018 is actual and payable. Penalties are applied to all unfulfilled overdue obligations from the obligation's due date to the end of October 2018.

Tools to Manage Obligations

The following tools are available in IRIS to assist industry with managing their obligations in an effort to avoid non-compliance penalties.

Obligations search functionality in IRIS

Industry users can search their organization's 'To Honour', 'Waived', 'Proposed', 'Fulfilled' and 'Overdue' obligations using the advanced search capability under the 'Infrastructure' tab in IRIS:

Non-compliance sweep report

This report enables industry to view and fulfill any outstanding obligations to mitigate the financial impact of penalties (reduce the number of days penalties are assessed by fulfilling the obligation). The data within the report is refreshed three times a day (5 AM, 12 NOON and 5 PM). It's important to note the sweep only reflects changes and updates as of the previous data refresh. If a user fulfills outstanding obligations at 10 AM they won't be reflected in the sweep until 12 Noon, the next scheduled data refresh.
