

Industry Tip

Change to Lease Continuance Preliminary Notice Schedule

Date	Module/Application/Functionality	Notes
May 25, 2017	Petroleum Tenure	Initial Release

The Ministry of the Economy (ECON) is discontinuing the generation of preliminary lease continuance reports in IRIS for the months of April through September. The decision was made to address industry concerns that providing these reports during the 90-day extension period led to confusion and frustration for lessees and designated representatives.

ECON will resume its earlier practice of generating *Notice of Lease Continuance Level Reports* for the months of October through March. These reports will be available in IRIS.
