

# Saskatchewan Consumer Price Index

August 2014

---

According to Statistics Canada, the Saskatchewan All-items Consumer Price Index increased 0.1 percent between July 2014 and August 2014 while the Canada All-items Index was unchanged. The Regina and Saskatoon All-items Consumer Price Index both rose 0.2 percent during the same period.

In Saskatchewan, the August All-items Index increased from July 2014 primarily due to higher prices for purchase and leasing of passenger vehicles, women's clothing, men's clothing and purchase and operation of recreational vehicles. Prices also increased for personal care supplies, bakery products and other food preparations.

Moderating these increases were lower prices for gasoline, fresh fruit, fresh vegetables and traveller accommodation. Prices also fell for children's clothing (including infants) processed meat and inter-city transportation.

The Saskatchewan All-items Consumer Price Index advanced 2.7 percent between August 2013 and August 2014 while the Canada All-items Index increased 2.1 percent. The Regina and Saskatoon All-items Consumer Price Index climbed 2.7 percent and 2.6 percent, respectively, during the same period.

The August All-items Index increased from August 2013 primarily due to higher prices for purchase and leasing of passenger vehicles, natural gas, electricity and water. Prices also rose for food purchased from restaurants, gasoline and rent.

These increases were partially offset by lower prices for non-alcoholic beverages, inter-city transportation, telephone services and cereal products (excluding infant food). Prices also fell for homeowners' maintenance and repairs, household textiles and fresh vegetables.
