

# Saskatchewan Consumer Price Index

December 2011

---

According to Statistics Canada, the Saskatchewan All-items Consumer Price Index decreased 0.8 percent between November 2011 and December 2011 while the Canada All-items Index declined 0.6 percent. The Regina and Saskatoon All-items Consumer Price Index fell 0.7 percent and 0.8 percent, respectively, during the same period.

In Saskatchewan, the December All-items Index decreased from November 2011 primarily due to lower prices for gasoline, the purchase and leasing of passenger vehicles and traveller accommodations. Prices also fell for women's clothing, men's clothing, clothing accessories, watches and jewellery and home entertainment, parts and services.

Moderating these decreases were higher prices for homeowners' replacement cost, mortgage interest cost, non-prescribed medicines and parking fees. Prices also rose for fresh vegetables, fresh fruit and other household supplies.

The Saskatchewan All-items Consumer Price Index advanced 2.5 percent between December 2010 and December 2011 while the Canada All-items Index increased 2.3 percent. The Regina and Saskatoon All-items Consumer Price Index climbed 2.8 percent and 2.2 percent, respectively, during the same period.

The December All-items Index increased from December 2010 primarily due to increased prices for gasoline, telephone services and cablevision and satellite services (including pay per view television). Prices also rose for homeowners' replacement cost, rent, mortgage interest cost and homeowners' home and mortgage insurance.

These increases were partially offset by lower prices for home entertainment equipment, parts and services, recreational equipment and services (excluding recreational vehicles), the purchase and leasing of passenger vehicles and footwear. Prices also fell for prescribed medicines, cigarettes and sugar and confectionery.

For more details, contact the Saskatchewan Bureau of Statistics at (306) 787-6327 or visit [www.stats.gov.sk.ca](http://www.stats.gov.sk.ca)
